

ASM 110-15/3 Asymmetrical Plate Roller

Library Image

CAPACITIES* (mm) & SPECIFICATION

ASM 110-15/3	Working Length - 1550
Max. Thickness – 3.5	Max. Pre-bend Thickness – 3.0
Top Roll Ø - 110	Min. Bend Ø - 150
Motor – 2.2 kW	Bending Speed – 4.5 m/min
Weight - 1250kg	Dimensions - 2620 x 1150 x 850

*Data are for steel with a yield point of 240N.mm⁻²

FEATURES

- Cast iron body
- 1550mm working length
- Central rollers powered via gearbox
- Cone bending device
- Self-brake main motor
- Top roll can be swivelled out
- Lower and back rolls can be moved vertically via hand wheel
- Separate control panel with foot pedal

Available Options:

Induction hardened rolls, Digital display for back roll, motorised back roll
