

### Twin-column Automatic Bandsaw

#### CAPACITIES (mm) & SPECIFICATION

Capacities	○ 460	□ 460 x 500
Blade Size	5450 x 41 x 1.3	
Dimensions	2735 x 2280 x 2185	
Blade Speed	30 to 85 m/min	
Feed Stroke	400 mm	
Bed Height	850 mm	
Weight (kg)	3090 Nett / 34850 Gross	

#### FEATURES

- Rigid twin column construction, vibration free cutting
- 7.5HP heavy duty motor with overload protection
- Hydraulic, fixed vices, clamps both sides of material
- Accurate measure of components by rotary encoder
- Control panel positioned at the side of main work area
- NC control
- Simple operation touch screen
- Programmable controller for all machine functions
- Heavy duty hydraulic blade tension unit
- Automatic cut-out for blade break or jam
- Automatic swarf conveyor
- Steplessly variable blade speed 30 to 85m/min
- Hydraulic control for precise, smooth bow-feed
- High power coolant delivery
- Bright, low voltage work light
- Comprehensive safety specification
