

Puma 80S Punching Machine

The GEKA hydraulic punching machines have been designed by experienced technicians, assisted by powerful CAD/CAM equipment and adapted to the ongoing suggestions of over 80,000 users of GEKA shears and punching machines worldwide.

PUNCHING

Punching power	800 kN
Maximum capacity	Ø 40x14 mm
Throat	510 mm
Working height	1094 mm
Max stroke	70 mm
Strokes / min (20mm stroke)	40

Features:

- Precision machined bed
- Cylinder with additional guide for precision punching
- Rigid construction
- Slow approach for accurate setting of tooling
- Quick change punch
- Safety protection
- Ample space for mounting special equipment

Please note, quoted capacities relate to steel with a material resistance of 45kg/mm²
