

## H330A

### Heavy Duty, Twin Column, Fully Automatic, Straight Cutting Bandsaw

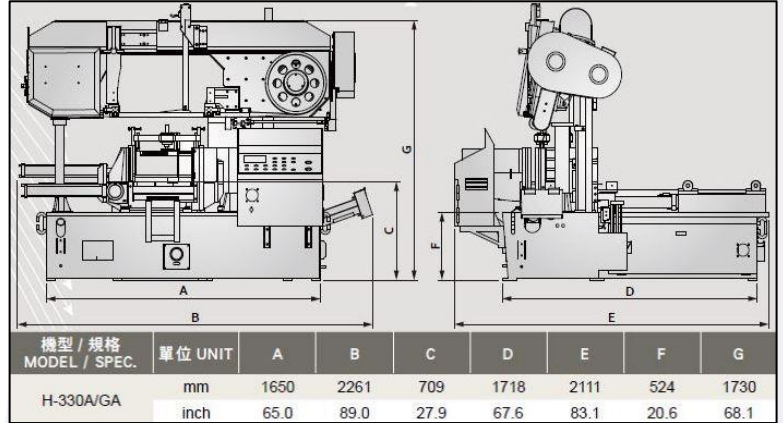

Designed for accurate cutting of all types of material including solids and heavy wall sections

## Features

- Heavy duty machine with high specification
- Twin, hydraulic, fixed vices, clamp material both sides of the blade
- Hydraulic swarf conveyor
- 400mm single pass, slow approach on forward stroke for accurate length setting
- 9 pass multi-feed facility allows machine to produce cut lengths up to a maximum of 3600mm
- Shadow light positioned above blade to aid accurate positioning for trim cut & semi-automatic operation
- Both moving and datum vice open to help with bent stock and prevent material marking
- Automatic head height control and fast approach facility for fast cycle times
- Tungsten carbide pads on both sides and top of blade, together with roller bearings

## Capacities (mm), Specification & Dimensions

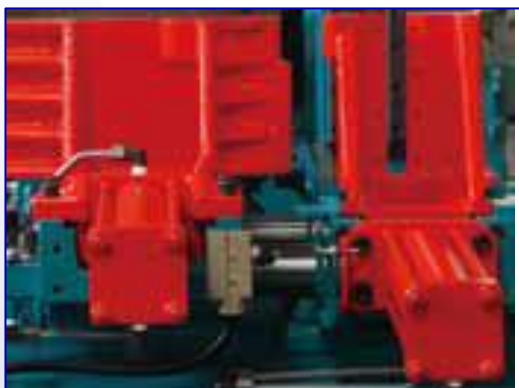

Capacities	○ 330    □ 350 x 350
Bundle Cutting	250 x 175
Blade Size	3920 x 34 x 1.1
Speed	20 to 80 m/min
Feed Stroke	400 mm
Table Height	709 mm
Weight (kg)	1630 Nett / 1850 Gross

Fast Approach 'T Bar'

Swarf Conveyor

Hydraulic Split Jaw Vise

Hydraulic Blade tension
