

## CUMBIA (ROUTY) CNC Machining Centers

### Features

- Rotation beam -90 / 0 / 90
- Monitor 15" colour display; running on Window CE
- Possibility to machine pieces longer than the useful X axe
- Sliding on the axis on linear guides with ball recirculation
- 4x Pneumatic clamps positioned manually along the beam

### Technical Data

- X axis stroke 3200mm, speed X axis 70mt/min
- Y axis stroke 475mm, speed Y axis 30mt/min
- Z axis stroke 300mm, speed Z axis 30mt/min
- Electro spindle air cooled 4kW 23000rpm
- Automatic tools system changer
- 6x ISO 30 cones; minimal lubrication; manual stop (left side); Air filter; air gun; protection

### Optional equipment

- Bar Code reading device; manual stop(right side); Pneumatic retractable stops (Left and right)
- Cone with disc cutter diam.120mm; Cone ISO 30

Specifications	
Material Feed Stroke/Speed	3200mm x 475mm x 300mm
Blade Size	
Motor	4kW 24000rpm
Dimensions (L W H) & Kg	4813mm x 4119mm x 2500mm & 1800Kg
