Blade Size (mm)	54 x 1.6 x 6800	54 x 1.6 x 8128
Blade Speed (m/min)	15 – 65 (variable)	
Motor Output (kW)	7.5	
Machine Size (mm)	3550 x 2300 x 2550	3803 x 1070 x 2370
Nett Weight (kg)	4300	4700

FEATURES

- Heavy duty twin column construction for fast, accurate cutting
- Modern design bow with optimised weight distribution for smooth descent
- Precision hydraulic downfeed control
- Hydraulic bow lift
- Hydraulic vices clamp both sides of blade
- Tungsten carbide blade guide pads ensure square cut, whilst rollers take twist out of blade
- Hydraulic blade tension, with gauge
- Automatic cut-out for blade break or jam
- Automatic head height setting
- Shadow lamp positioned above blade to aid accurate positioning of material.
- Serrated, manual lift roller within the bed of the machine that raises when the vices are unclamped
