

## PERTICI 379MP Non-ferrous cut off saw

The Univer 379 single head cutting machines, are specially designed for the cutting profiles made of aluminium, PVC and similar materials.

The cutting unit has a rotating plate that can be oriented around the vertical axis for making cuts up to 45° to the right or left, and the saw blade can be set at an angle of 45° to the horizontal axis for compound mitring.

Shaft Diameter 30mm

Blade Diameter 330mm

Bore Diameter 30mm

Revolutions Per Minute 3765 rpm

Mitre Capability -45° to +45°

Compound Mitre 0° to +45°

Motor Power 1.1kW

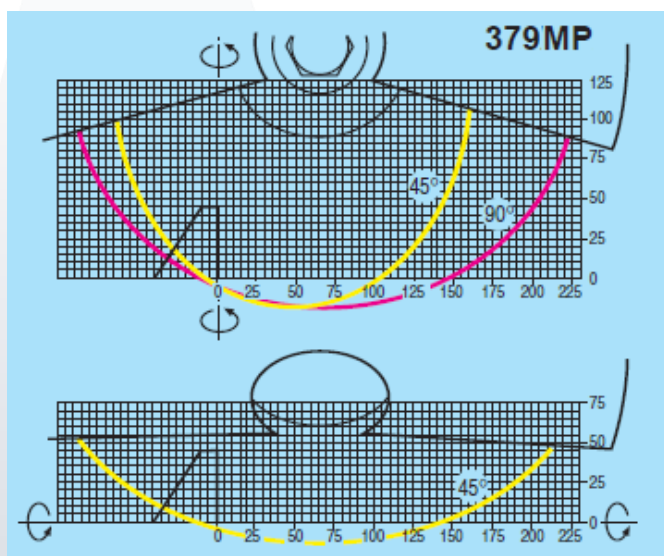

Machine Width 780mm

Machine Length 980mm

Machine Height 1400mm

Machine Weight 110kgs

Year Of Manufacture 2001
